Conqueror X Integrations with Cashless Systems

Conqueror X is built for bowling and entertainment operations to be flexible to the wide array of business models and needs and provides secure and intelligent control to run your business, your way. Conqueror X is one complete system where everything works together with a modern, user-friendly interface, including interfacing with cashless systems.

Conqueror X is integrated with the following cashless systems:

	MAGNETIC CARDS	CONTACTLESS CARDS (RFID)
Intercard	X	X
Embed	X	X
Sacoa	X	X
Semnox		X
CoinTech	X	

These systems provide the ability to store money in a virtual electronic purse on a payment card.
The integration with Conqueror X allows the bowling center operator to perform the following activities:

• activating third-party cashless system cards (Intercard and Semnox do not require card activation)
• loading money on cashless system accounts
• paying bowling, F&B and other purchases using money* loaded in the cashless system
• checking the balance of the cashless system account in real time

All these features are seamlessly integrated and managed through Conqueror X.
