

# CONQUEROR MAXIMIZATION **INSIDER**

## Did You Know?

### Cloud Based Kiosk Setup

You may have already noticed the trend of more and more Conqueror X related products are moving to the cloud. It started with QPortal, then Conqueror Web, and now the new Conqueror Kiosk will be no different. The majority of Conqueror Kiosk setup will be cloud based and completed from the QPortal. So, what does this mean for you?

Your local sports team just won the championship and you have a great idea to capture some new business and celebrate the victory with your city. However, you are away on business for a few days and really do not want to let the opportunity slip by. Simply connect to your QPortal from your phone, laptop, or any other internet enabled device, create the new Kiosk offer in just minutes, and save. It will be instantly available for sale at your kiosk if you so choose—all without having to head to the center! Provided you have access to an internet enabled device, you will always be able to setup, create, and modify the offerings on your kiosk, no matter where you are.

Think a kiosk will be great for your business but don't know where to begin? QubicaAMF now offers Setup and Optimization services to assist with specific system customization based on your operational needs. It all starts with a virtual meeting hosted by a QubicaAMF Services Expert to understand your centers current operations and specific setup criteria. Your Services Expert will then remotely setup your kiosk settings, offers, and verbiage to your specifications so you know it is done correctly and efficiently. To inquire about Kiosk Setup services or any of the other Setup and Optimization services provided by QubicaAMF, [click here](#) and submit the online form. A representative from the Expert Services team will reach out shortly with additional information and begin the process with you.
